INDEX TO VOLUME 18

July Through December 1949

In Two Sections
Section TWO

How to Use This Index

As you know, items in QUOTE, arranged alphabetically according to subject matter, are regularly assigned an index number. In our semi-annual index, the first numeral in each reference indicates the issue of QUOTE, the second numeral refers to the location of the item within that particular issue, according to its index number. Thus, running down the column on the right, **"Accidents—3-10;"** tells you that an item on **Accidents** will be found in the **3rd** issue of this volume of QUOTE under index number **10**.

One or more letters, following an issue number, refers to material in regular departments. For example: **"Abbreviations—17-a;"** indicates that an item on **Abbreviations** appears in the regular *Good Stories* section of issue **17** under the index letter **a**. The reference to **"Age—1-GY;"** means that an item on that subject appears in the *Gems of Yesteryear* column in issue **1** of QUOTE. The letter **W** refers to the *Wisecracks*, or brief quips between the anecdotes in the *Good Stories* section.

Quotations in the section *May We* QUOTE *You On That?* are also numbered consecutively, but each number is followed by the letter **Q**. Thus, the entry in the right hand column, **"America—8-11Q;"** refers to a quotation on **America** in the **8th** issue, numbered **11Q**; in the *May We* QUOTE . . . section. A complete list of department abbreviations appears below:

I certainly think that the best book in the world would owe the most to a good index, and the worst book, if it had but a single good thought in it, might be kept alive by it.—HORACE BINNEY, American lawyer, writer and public speaker, in a letter to a friend, April 8, 1868.
